### Collaboration, new partnerships

M\_Key survey has started in partnership with twelve cantonal energy offices. Six cantons in the German side of Switzerland -Argovie, Luzern, Schwyz, Turgovie, Schaffhausen, Zürich- and the six French-speaking cantons -Genève, Fribourg, Jura, Neuchâtel, Valais, Vaud- have accepted to send out the electronic questionnaire to large-scale energy consumers.

Meetings will be organized in several cantons during autumn, in partnership with cantonal energy authorities, to describe the findings of M\_Key survey and get in contact with large-scale energy consumers for the 2nd step of the empirical research: the face-to-face interviews.
